

# IMPACT WINDOWS & DOORS

Replace your old, worn, or builder grade windows with new energy efficient impact windows and doors and save. CRA has you covered!

an investment you can see and feel every day in your Florida home

If you are thinking about new or replacement windows and doors, but the project just seems too big, call in the experts! We will help you make the decision that is right for your home, and the process will be seamless. CRA teamed up with three major Florida window manufacturers, **PGT Industries**, **Windoor Inc.**, and **Custom Window Systems**, to offer a full line of both impact and non impact windows.

CRA provides window and door replacements for existing homes and also services the new construction market with the best hurricane windows available anywhere!

All products meet or exceed Miami-Dade and Florida hurricane codes and offer simple hurricane protection as well as 24/7 security from home invasion. You can even reduce your monthly energy cost by 25% or more with new LowE3 glass technology. Certified impact products can also reduce insurance premiums for most homeowners.

**Schedule a meeting with our window specialists to get a free quote and analysis for your return on investment! You'll be glad you did.**

### You're Covered

Our team of consultants, engineers, builders and service technicians serve homeowners on the Gulf Coast of Florida from Greater Tampa all the way to Naples from our facilities in Venice and Ft. Myers.

Call one of our experts to explore your options and learn why CRA is the leader in Florida for impact windows and doors.

an important decision

If you are considering replacement windows your decision will probably include a combination of these factors:

1. Appearance
2. Wind-storm performance
3. Thermal performance
4. Price point

Our team of seasoned professionals will provide you with a comprehensive overview of all of these factors so that you can make an informed decision.

you're ready for new windows & doors if:

- Your windows and doors are broken and replacement parts are no longer available or repair is no longer an option
- Your windows and doors leak creating an environment conducive for mold growth or water damage
- You want better thermal performance for a more consistent and stable interior environment and lower energy costs
- You want wind-storm protection without the need for bulky roll down shutters or hassle with hanging storm panels
- Desire for security without unattractive security bars
- You want to reduce your home insurance costs

**PGT Industries** – recognized as the nation's largest manufacturer of residential impact resistant window and doors – offers aluminum and vinyl windows, sliding glass doors and enclosure systems. From single hung, horizontal roller and casement window options, PGT Industries provides an excellent choice with multiple options. Windows and doors from PGT filter out 99 percent of the sun's harmful UV rays, significantly reduces outdoor noise, helps to lower monthly energy costs, increases security and provides hurricane protection.

**Custom Window Systems** - offers windows that are hurricane proof and Energy Star rated. This company provides a vast array of vinyl window and door options that can meet just about any desire style or architectural requirement or shape. Vinyl is extremely energy efficient and fully welded to minimize potential for leaks and mold.
