

SCREENED POOL & PATIO ENCLOSURES

From Tampa to Naples, CRA has you covered. We custom fabricate the highest quality enclosures for you to enjoy your Florida lifestyle.

custom designed and built just for you

A custom pool or patio enclosure by CRA is the epitome of Florida living! A properly designed and engineered enclosure will not only keep the critters out but will add beauty, style, value and supreme livability to your outdoor space year-round. We are happy to assist you with both new and existing enclosures including repair, refurbishment or replacement.

Each screen enclosure we offer is custom designed and engineered for your specific property with careful consideration to your specific needs and budget. We then build to stand up to our tough Florida environment. That includes being able to withstand winds as high as 160 mph as designated by the Florida Building Code. We use only the highest quality materials for each structure. We also back what we manufacture with one of the largest service fleets of trained professionals in all of Florida.

Our experienced team can ensure you get the right enclosure for your property with special consideration to your surroundings, application and budget. You have many options regarding roofs, materials and accessories to make your enclosure a one-of-a-kind space designed just for you.

Once your design has been selected CRA handles all necessary engineering and permitting requirements as specified by the State of Florida and county in which you live. We then build your new custom enclosure at our production facility prior to installation where we work in a controlled environment to pay maximum attention to every detail. This also greatly expedites the installation process while offering the minimum impact to you and your property.

Lots of options. Our team will help you make the right choice for your home and budget.

Relax

From there all you do is enjoy your beautiful new space like thousands already have from Commercial Residential Aluminum.

You're Covered

Our team of consultants, engineers, builders and service technicians serve homeowners on the Gulf Coast of Florida from Greater Tampa all the way to Naples from our facilities in both Venice and Ft. Myers.

Patented Beam

A CRA exclusive, our patented Channel Lock Beam is revolutionizing the Aluminum industry. This beam behaves differently than other beams and gives it a higher strength rating. We span further, which enables us to produce enclosures less expensively.

Call one of our pool cage experts to explore your options and learn why CRA is the leader in Florida for Pool Cages and Screened Enclosures. Superior construction and expert service from the industry leaders does not have to cost more.
